In Gaithersburg, MD

Darline D.H. Bell-Zuccarelli

Candidate for Mayor, November 7, 2017

May 23, 2016

Michael Johnson
Department of Public Works
City of Gaithersburg
800 Rabbit Road,
Gaithersburg, MD 20878

Dear Mr. Johnson,

I was home sick last week and noticed a great deal of parking going on in my community. I had hoped it was because of my constant complaining that the City of Gaithersburg is and continues to ignore the east side of Gaithersburg.

But my hope turned to suspicion, when at a meeting with the Westleigh community and Delegate Jim Gilchrist; someone mentioned that Crown Castle International had requested Miss Utility to mark the roads.

Here is where the city is constantly showing its ugly side. On April 11, 2016, the city was supposed to be holding a "fact finding" public hearing with the residents. Within minutes of the presentation, we learned that the city has been in conversation with Crown Castle for more than a year.

I sat and watch Mayor Ashman and City Council members pretend to be in the dark about some of the issues that were being brought up by the residents. If that was the case, then why weren't the Mayor and Council up to date?

Here is my problem. The Mayor and City Council is showing their true colors. They are not to be trusted in matters of this city. I am flat out asking and I want a straight answer. It will not be good to lie to me here. Is the markings happening in the East Deer Park community in preparation for bring in small cell towers?

Was the marking being done in the Westleigh community this week requested by Crown Castle in

preparation for installing the small cell towers?

I would really appreciate a response to this email in time for the City Council meeting this evening.

Sincerely,

Darline D.H. Bell-Zuccarelli
